

**Telesphere's New Channel Program to Provide Agents
Portfolio Building Opportunity with Fully-Managed IP Services Product Suite.**

*-- Telesphere's Channel Program Combines Cutting Edge Technology
and Aggressive Compensation for Its Agents --*

Phoenix, AZ (March 10, 2008) – Telesphere, a Phoenix-based telecommunications provider, has launched an extensive channel program and incentive package for partners throughout the country. The program will connect Telesphere with quality agents looking to expand their portfolios and profitability.

“We have established an outstanding program to prepare our channel partners with the solutions they need to provide service and increase their profitability,” said Telesphere Chief Executive Officer Clark Peterson. “Through our program, agents will be better equipped to develop the infrastructure of the companies they service.”

Telesphere's innovative services, combined with aggressive compensation packages, are designed to enable channel partners to solve their clients' telecommunication needs and challenges under continual changes in technology. By offering a full suite of managed IP-based telecommunication solutions, agents will equip their portfolios with VoIP technology that incorporates traditional services with the state-of-the-art Broadsoft IP platform powered on a Cisco infrastructure. With this network Telesphere can provide services from the simplest form of Integrated T1 to a fully-hosted IP PBX solution.

Telesphere offers a full suite of managed voice and data solutions for business, private IP / MPLS wide area networking, SIP Trunking, traditional integrated T1 options, call center solutions, and hosted PBX are among the most in demand services offered by Telesphere. The delivery of services is typically over dedicated access facilities which are managed and support QoS end to end for VoIP and other sensitive data. Telesphere also offers its SIP and hosted PBX on a VoN basis which utilizes a customer's current internet connection. The solution is ideal for businesses around the country because it provides state-of-the-art technology and managed connectivity.

“This suite will be a tremendous asset to any agent's portfolio,” said Telesphere Director of Channel Sales Dean Jordan. “Each aspect of our product line is designed with our customers in mind. Along with customer friendly products, agents will also find high residuals, frequent sales incentives and no revolving sale quotas.”

Telesphere's channel program maintains three distinct arms, including opportunities for national and regional agents and referral agent programs. More information can be found at www.Telesphere.com/Partner_Programs.html. Industry-leading incentives are offered to all approved partners, including:

- Residual commissions up to 20 percent
- No sales quotas
- Quarterly sales incentives designed to allow for faster ramp to higher residuals

- Quarterly sales contests
- Annual Presidents Club Trip

Individuals who sign up to participate in the Telesphere agent program before Sept. 30 are also eligible to receive \$1,000 for the first three sales within the first 90 days as an agent and \$500 bonus per additional location for any sale made in their first quarter with Telesphere. Telesphere is also developing a sophisticated agent portal with instant quotes, contract generation, lead tracking, commission tracking and an online library of marketing materials.

ABOUT TELESPHERE

Telesphere is a Phoenix-based managed services provider that delivers an innovative package of IP telephone service and internet access to businesses throughout the United States. Telesphere's services allow small to medium-sized businesses to enjoy all of the latest voice and data features of large businesses without the costly investment of on-premise equipment. Telesphere fully manages its customers' services over a private IP, facilities-based network. It allows Telesphere customers that are spread across multiple offices throughout the country, from small business, medium business, and even home business, to function seamlessly as if they were in the same location.
