

Concierge Communications Exceeds Quarter Million Dollars of Hosted PBX Sales with Telesphere

Phoenix, AZ (March 27, 2008) – Telesphere, a nationwide managed IP telecommunications and Internet services provider, announced today that Concierge Communications, a master communications agent located in Tempe, AZ, exceeded \$250,000 of installed monthly recurring revenue (MRR). Concierge has sold to more than 100 locations in more than 40 states.

“We are excited to see Telesphere partners like Concierge reach such an impressive milestone,” said Dean Jordan, director of channel sales for Telesphere. “The industry is quickly moving toward IP PBX and hosted IP services, and innovative partners like Concierge who promote SIP trunking and hosted IP services are benefiting the industry tremendously.”

The Telesphere solutions in Concierge’s portfolio include BusinessSphere Connect, BusinessSphere Select, BusinessSphere Complete and BusinessSphere Remote. The customer profiles include single and multi-location companies and a variety of vertical markets such as medical, real estate, finance, insurance, business services and manufacturing.

“We are pleased with the relationship we have with Telesphere and their consistent performance over the past five years as a managed VoIP provider,” said Clark Atwood, vice president of technical sales for Concierge Communications. “We have yet to find another VoIP provider that can match the private architecture, platform stability, customer service and feature choices. When you have a provider who delivers VoIP so flawlessly, you will have people referring business to you.”

About Concierge Communications LLC

About Telesphere

Telesphere is a Phoenix-based managed services provider that delivers an innovative package of IP telephone service and internet access to businesses throughout the United States. Telesphere’s services allow small- to medium-sized businesses to enjoy all of the latest voice and data features of large businesses without the costly investment of on-premise equipment. Telesphere fully manages its customers’ services over a private IP facilities-based network. It allows Telesphere customers that are spread across multiple offices throughout the country, from small business, medium business, and even home business, to function seamlessly as if they were in the same location.
